

## FUND OBJECTIVE

The fund aims to provide high levels of income, with a low risk profile. It caters for the investment needs of the investor looking to preserve their capital and ensure liquidity in BWP. The fund is a capital preservation fund that invests in low risk assets with maturity periods of less than one year.

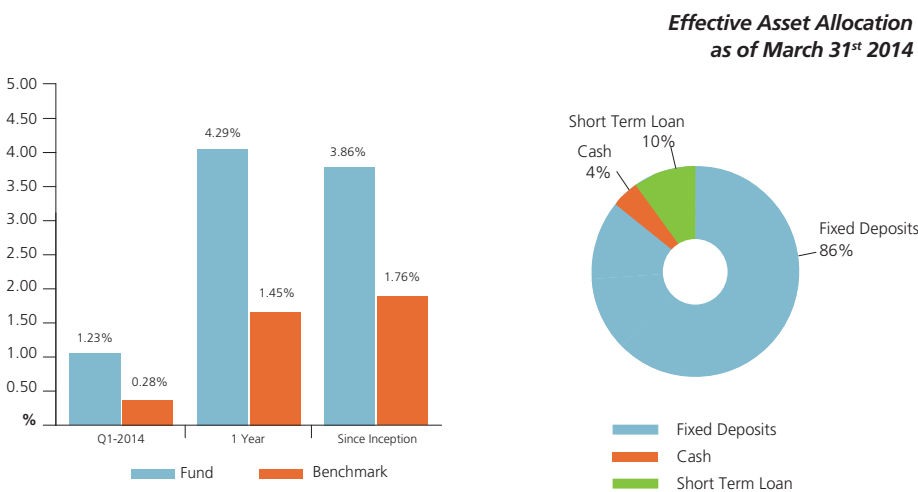

## STRATEGY

The Bifm Money Market fund invests in Call and Fixed deposits and Treasury Bills. We actively manage the portfolio, by seeking yield enhancing assets, without compromising the risk and maturity profile of the fund.

## WHY CHOOSE THIS FUND?

This fund is suitable for investors who want high yields but need their funds to remain liquid.

## PERFORMANCE

## INVESTMENT COMMENTARY

In the first quarter of 2014 (Q1 2014), the LMM in the BUPUMM fund displayed a performance of 1.23 percent, an outperformance of 95 basis points against the benchmark of 0.28%. The fund outperformed the benchmark, over the one year period and since inception. This outperformance is mostly attributable to the successful negotiation of better rates on fixed deposits and structuring money market instruments, which offer a relatively higher yield.

Collective Investment Undertakings (CIUs) are generally long-term investments. The value of units may go down as well as up and past performance is not necessarily a guide to future performance. Unit trusts are traded at ruling prices. Commissions and incentives may be paid and if so, would be included in the overall costs. Forward pricing is used. Different classes of units apply to these funds and are subject to different fees and charges. A schedule of fees and charges and maximum commissions is available on request from Bifm Unit Trusts (Pty) Limited, Unit trust prices are calculated on a net asset value basis, defined as the total market value of all assets in the unit trust fund including any income accruals and less any permissible deductions (which may without limitation include brokerage fees, VAT, bank charges, audit fees, trustee fees and the annual management fee) from the fund divided by the number of units in issue. Performance figures are based on lump sum investments with income distributions reinvested. The investment objective of the fund shall be compared with the investor's objective, before an investment decision is made by the investor. The Total Expense Ratio (TER) cannot be taken as an indication of fund performance. The current TER cannot be regarded as an indication of the future TER. The fund is managed to comply with the Collective Investment Undertakings Act Cap 56:09 (and shall be amended from time to time). Exposures in excess of the limits will be corrected immediately except where due to market value fluctuations or capital withdrawals in which case they will be corrected within a reasonable time period. Bifm Unit Trusts (Pty) Limited, Company Registration Number: CO2009/2597, is approved by the Non-Bank Financial Institutions Regulatory Authority as a Unit Trust Management Company. Bifm Unit Trusts (Pty) Limited does not provide advice on investments, but does present clients with information on all Bifm Unit Trusts CIU funds. The fund prospectus may be acquired free of charge, from Bifm Unit Trusts (Pty) Ltd.
